About Us

Coalesce Construction Ltd offers highly trained and experienced teams of tradesman that specialise in construction, refurbishment and maintenance services to all sectors across the South East of England.

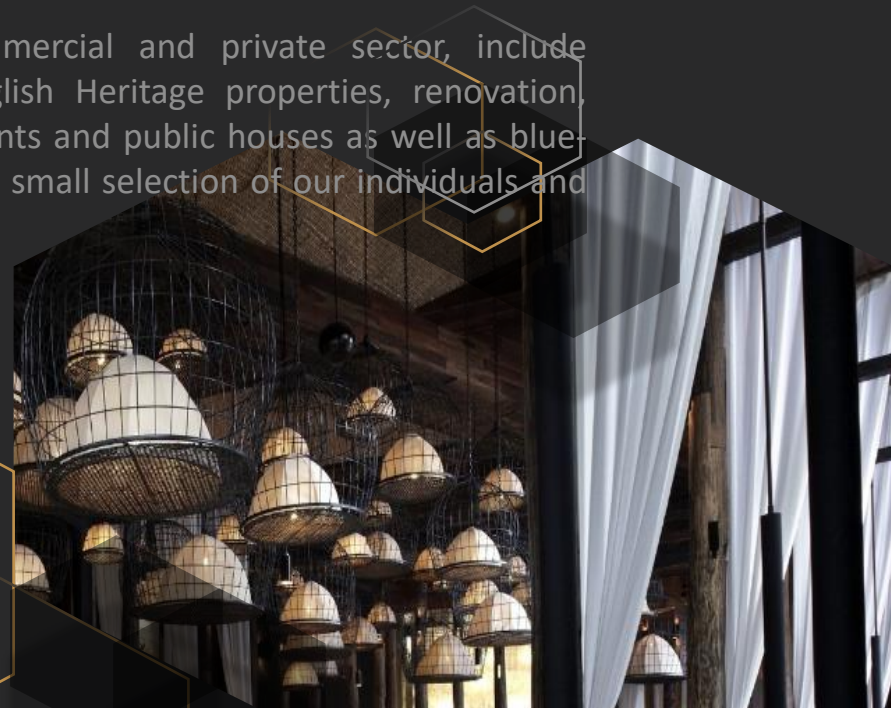

History

Established in 2017, Coalesce Construction Ltd has grown rapidly year on year. The company started with only a handful of employees and over a 4 year period, it has developed into an organisation that employs over 50 full time expert tradesman and administration. Initially, starting in Kent, the business has expanded its job coverage to the entire South East of England and London.

Philosophy

Coalesce Construction's philosophy from the outset upholds a work ethos combining individuals who have outstanding backgrounds of excellence in construction, UK awards and TV Coverage. We provide our clients with teams who present both quality and value. One of our core principles is pride and maturity. We make sure everyone is happy while working for us to empower the quality and value expected from our prestigious clients across Kent, Sussex, London and Greater London.

Historical portfolios and services to the commercial and private sector, include prestigious projects, building house boats, English Heritage properties, renovation, hospitality and retail refurbishments for restaurants and public houses as well as blue-chip construction companies and these are just a small selection of our individuals and teams' achievements so far.

Industry

"We believe that communication is key to our industry."

We maintain growth through progressive expansion; continually demonstrating competence, discipline and best practice in a fast moving industry. We have developed a natural aptitude for business and through our team of Project Managers, Surveyors, Contracts Managers, Engineers, Operatives and Admin support staff, we are able to offer a professional and proactive approach in the delivery of building services to our extensive client base.

Flexible Solutions for Your Business Needs

Our years of experience in the Facilities Management and Construction Industry have enabled us to provide high quality, cost effective and sustainable solutions to our clients. We tailor these solutions to meet the specific needs of our customers, whilst understanding the operational demands they face. We work in partnership with our clients to improve the operating performance of our services, delivering value whilst continuing to provide excellent service.

Range of Services

- Building Fabric
- Cleaning Services
- Compliance
- Customer Service & Helpdesk
- Ground Services
- HVAC Maintenance & Support
- M&E Maintenance & Support
- Project Management
- Refrigeration Services

UK Coverage

Each of our vehicles is fitted with a tracking device providing real-time GPS vehicle tracking.

Fleet tracking is a valuable management tool that allows us to respond swiftly to our customer's needs by deploying our vehicles more efficiently. Accurate and constant updated door-to-door navigation enables easy planning and allocation of operatives ensuring they are co-ordinated to travel directly to the nearest job.

- Real-time visibility on vehicle & driver location for effective dispatching
- Two-way communication between office & vehicle, aids to improved response time
- Automatic routing using satellite navigation
- Improved security & protection for our drivers & vehicles
- Analysis of historical data for routes & proactive vehicle usage

Health, Safety and Wellbeing

Coalesce Construction's management of occupational health, safety and wellbeing is core to the effective running of the business and our projects. Linking safety, experiences and the quality of care with the safety, health and wellbeing of the workforce is the core success of our projects regardless of size.

Safety and Wellbeing is continuously developed to meet with national standards through training and development programmes to satisfy our legal duties to protect our people from injury and illness.

The Coalesce management team have clear strategies and our commitment to Safety and Wellbeing is essential, we recognise Construction can be highly dangerous; realising delivering projects with safety as the core principle enables us to maximise our potential.

With a history of health and safety and employment accredited awards won by Coalesce individuals, Coalesce management team invest in a solid safety framework which is both motivational and encouraging and creates a health and safety culture across the entire organisation.

Our people understand their roles and the importance behind the delivery of safe projects whilst completing our work, always with zero tolerance for risk; with the emphasis on training, communication, safety equipment, systems and processes, the safety essentials at Coalesce are based on encouraging and caring about each other and the people and environment around us.

Working Together to embrace health and safety and supporting each other is fundamental to engaging our people to uphold the safety of everyone at every level.

OUR VALUES

TRUST
EXCELLENCE
ACCOUNTABILITY
COLLABORATION
SERVICE
INNOVATION
GRATITUDE

The core values at Coalesce Construction make up the foundation on which our organization is built on. The business' fundamental beliefs and guiding principles dictate our behaviour and act as an unwavering guide to the right path in fulfilling our goals. They create a feeling of purpose, improve our team cohesion and form a sense of commitment in our workplace.

Coalesce Construction
Building The Future

Listen Better. Plan Better. Build Better.

Trust

Whether at home, socialising or working, relations are built on trust. We have the firm belief in consistency, reliability and the truth.

Excellence

No matter how big or small the job is, on site or in the office, we set out to complete our work to the highest of standards with outstanding quality.

Accountability

We understand that nobody is perfect. That's why we believe in identifying the mistake, analysing it and finding a solution.

Collaboration

We feel work is best performed in teams. That's why we encourage collaboration, idea sharing and good communication to produce the most effective and efficient results.

Service

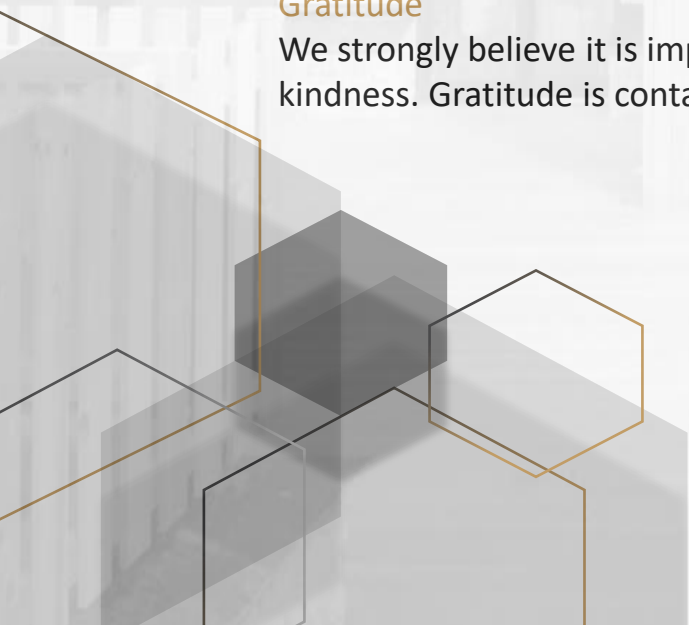

In our line of work, the priority is our customer. We take huge pride and satisfaction in the happiness of our client.

Innovation

The building and construction industry is constantly evolving. At Coalesce Construction, we are continually looking for new ideas, methods and services to improve the client's options.

Gratitude

We strongly believe it is important to always be thankful, show appreciation and return kindness. Gratitude is contagious and creates a positive working environment.

Coalesce Construction Services

COMMERCIAL SERVICES

We specialise in the commercial build-outs for restaurants and retail spaces, as well as exterior and internal facelifts or new builds. Your raw space will be transformed into well-designed, unique rooms fit for purpose.

RESIDENTIAL SERVICES

With years of experience in the trade, our skilled teams have the know-how to create your perfect home, living space or extension. We guarantee you'll be extremely satisfied with the result.

PLANNED, REACTIVE & EMERGENCY MAINTENANCE

We provide a complete range of maintenance and repair services to all sectors. We offer 24hr 365 day maintenance cover ensuring our clients day to day operations run smoothly and their services are maximised.

BUILDING & CONSTRUCTION

At Coalesce Construction, we offer tradesman and services for all aspects of commercial and residential builds. We can do part of the build or we can take control of the entire project.

Innovative Solutions

Automated Workflow & Operations Service

To ensure high standards and efficiency, we use the latest workforce organisational and monitoring technology. This platform allows us to communicate promptly and enhances job understanding. We are able to plan and schedule, job share and track the locations of all our engineers.

Condition Based Maintenance

We use the latest condition based monitoring technology to deliver enhanced statutory compliance. This lowers costs, reduces administrative burden and enables our engineers to focus on the job.

Performance Monitoring

The greater the quality and performance of our engineers, the happier our clients and customers will be. That's why we consistently emphasise the importance of our engineers' continual growth and improvement. With our performance monitoring technology, we have access to statistics and reports to enable us to analyse our employees strengths, weaknesses and where they need to improve.

The Best People Working for you

Working at Coalesce Construction offers a wide range of career paths and opportunities. As a specialist building and construction firm we ensure we give all of our team members the opportunity to nurture their skills and develop their careers, offering multifunctional responsibilities.

We focus on engaging and retaining the most skilled tradesman in the industry, embedding a culture of success to enable us to deliver the best service to our customers.

At Coalesce, our people really are our greatest asset. They thrive on the challenge of being the best in the industry, ensuring our clients have experienced, professional and loyal staff working on their property who are always prepared to go the extra mile.

We place a great emphasis on developing our people, through formal training programmes, coaching and mentoring. We encourage and support our employees to achieve their full potential, either by being at the top of their game in their chosen specialism or by progressing their careers through the ranks. Our management teams are always on the ground, supporting and coaching their teams and talking to our customers.

Commercial Services

Coalesce works closely with its clients to create a planned service agreement which is specifically designed to reduce the requirement for reactive calls. This service helps ensure the business operates with minimal unplanned downtime.

Within the planned maintenance agreements, Coalesce can also include any non-urgent reactive repairs, with this efficient approach, the client avoids the reactive charges furthering client satisfaction. The planned maintenance agreement is specifically tailored to suit the clients requirements, and also will consider the manufacturers recommendations, legislations and the client's preferences and priorities.

All planned maintenance can be monitored, and instructions can be logged on the Coalesce Client Management system which can be accessed remotely at any time.
